

## Maplewood Care Society Update

March 11, 2022

Dear Residents and Families of Maplewood House,

As I am sure you have heard yesterday the Provincial Health Officer, Dr. Bonnie Henry announced that there are changes coming to the visiting guidelines for our long-term care homes in BC. The guidelines are to be in effect by next Friday, March 18th. Once we receive more information on these changes, we can work out our plans to be able to support our social visitors back into Maplewood House.

Currently what we do know is:

- Social visitation will resume by Friday, March 18<sup>th</sup> or sooner
- Preventative measures will continue prior to entry which include:
  - All visitors must be vaccinated
  - All visitors will be screened and given a rapid test
  - Wearing of masks in the home is still required

Thank you for all your patience, understanding and support as we adjust to maintain the quality of care for our Residents.

If you have any questions or concerns, please contact Krista Homfeld, Director of Resident Services, at 604-870-7560 or [khomfeld@maplewood.bc.ca](mailto:khomfeld@maplewood.bc.ca).
