

COVID-19 UPDATE FOR MAPLEWOOD HOUSE

Saturday, December 26th, 2020

Good news! The Medical Health Officer lifted the isolation requirements yesterday as there were no additional confirmed or suspected cases with residents or staff. The residents were happy to enjoy lunch in the dining room on Christmas Day.

We continue to be vigilant with hand hygiene, isolating and swabbing symptomatic residents and screening staff and wearing proper PPE.

We are resuming our visiting program today, December 26, 2020. The Social Coordinator will be contacting those families who have regularly scheduled booked times in order to transition back to our previous schedules. You may also contact her to book new visits.

I wish to extend my sincere thanks to the staff for their skilled and dedicated work, to the residents for their patience and to the families for their cooperation and understanding in this challenging time.

As always, we will keep you informed regarding any new developments. Please do not hesitate to reach out if you have any questions.

Warm wishes,

Hilde Wiebe
Interim CEO
